ADVENTURE QUEST

Prepare for a thrilling adventure to the Lost City, where unimagined beauty, unlimited riches, and untold secrets await you... Found only by the obscure drawings contained on a secret map, you've uncovered the location to the Lost City, a mysterious land that has been forgotten by time. The underbrush clears away and what unfolds before your eyes is a spectacular stone city that has been hidden away and preserved for centuries.

Your exploration begins in the briefing and vesting rooms which are decorated with large stone columns, and enormous hand-carved stone medallions hanging on the walls. Cracked stone, snaking tree roots, and creeping jungle overgrowth surround you as the maps are unrolled. Be sure to study the terrain, formulate your plan, and have your laser gear at your side as you journey to the Lost City.

The arena landscape that unfolds before you is filled with hanging vines, lush tropical foliage, and crumbling stone ruins from the secret civilization that once occupied this area. Brush back the jungle overgrowth to reveal massive Toltec statues along the passageways and hand-carved stone medallions perched along the perimeter walls. Around the edges of the ruins, more wild growth can be seen from the light of the giant torch tower that sits in the middle of this hidden treasure of the jungle.

Amidst a maze of crumbling stone walls with inscribed writings and painted images, you prepare to unveil the secrets from the past. What happened here? Where is the hidden treasure? Locate the clues, find the answers, and get out before it's too late!
