## EARTH QUEST

Prepare yourself for an epic journey to the core of the Earth where you'll face the harshest Elements the planet has to offer and battle creatures never before seen by human eyes! While the forces of nature have waged war over the Earth for millennia, the real struggle has been taking place right below our feet.

The Elements of Fire and Ice have fought for dominance over the planet since the beginning of time. They have created underlings to aid their cause – armies of the netherworld – who fill the caverns and crevices underneath and threaten to spill out into our world above ground.

Your expedition begins inside the cavernous briefing and vesting areas where you receive your instructions and suit up into your laser gear. Pay careful attention to the catacomb maps and the layout of the terrain as danger lurks around every corner. Your memory may be your best weapon.

Enter the unexplored caverns of molten lava and frozen crystals, taking care not to forget your path. Large groupings of stalactites and stalagmites obscure your way, and peering eyes with creeping hands watch your every move. Enormous roots and jutting boulders surround you at every turn and the way back gets further away with every step.

Finding your way to the glowing core you'll see radiant light emanating from the large structure created by the Elements. Is this the source of their great power? Unlock the secrets and help stem the tide against humanity!

**Investment:** Starts at \$24.00 per square foot

### Options:

Entrance Arch: *Netherworld Archway*  
Center Prop: *Earth Core Generator*
