

August 2007

Recent Project: Brunswick Zone XL

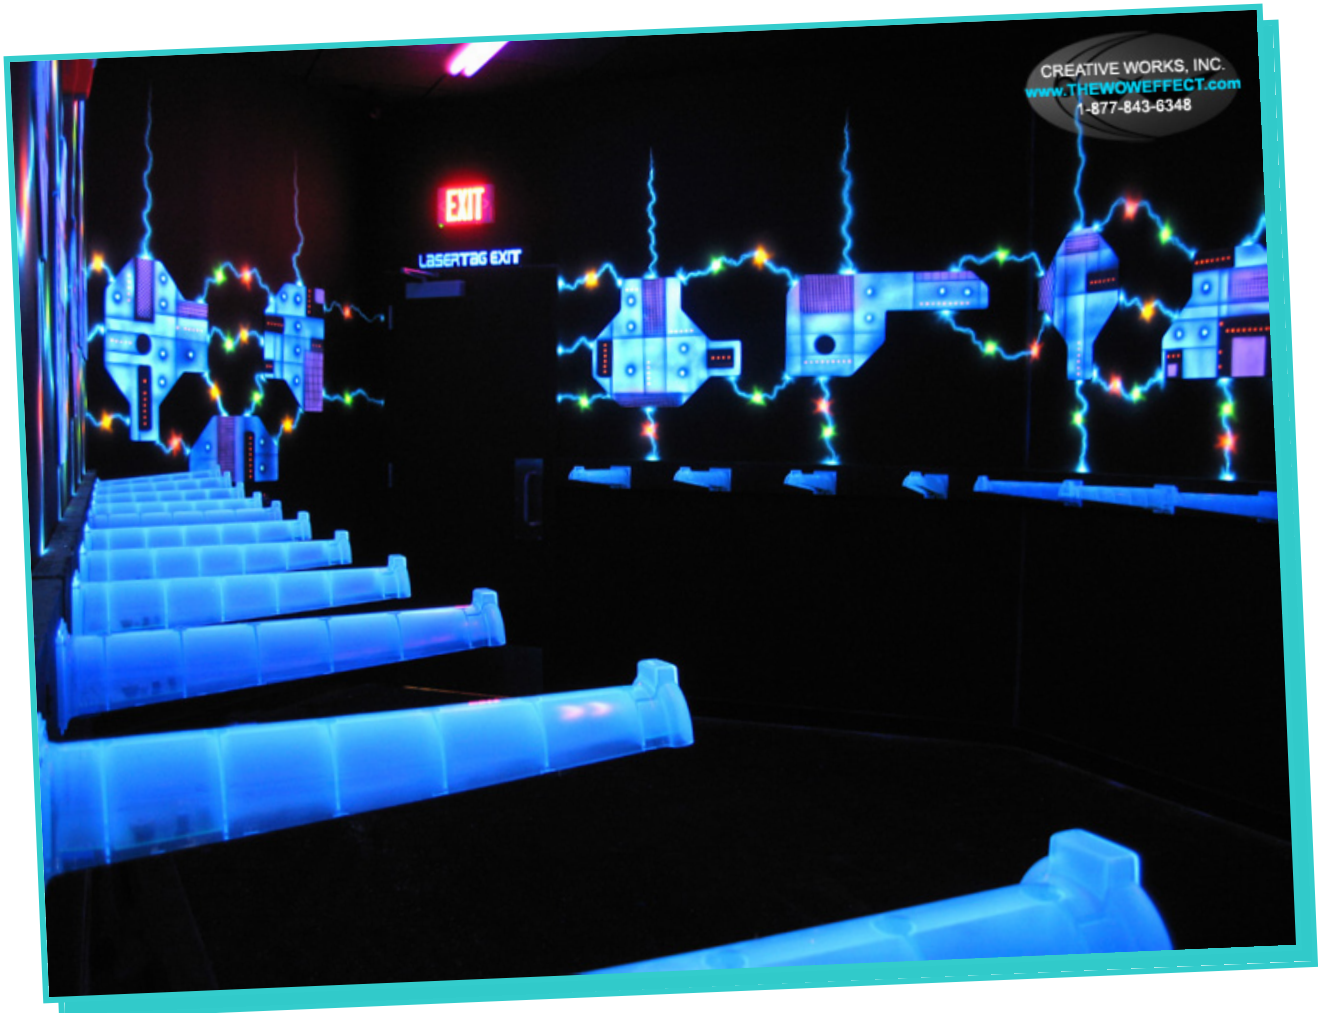

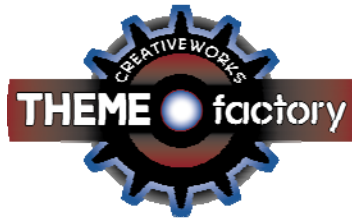

Location: St Peters, MO

Statistics:

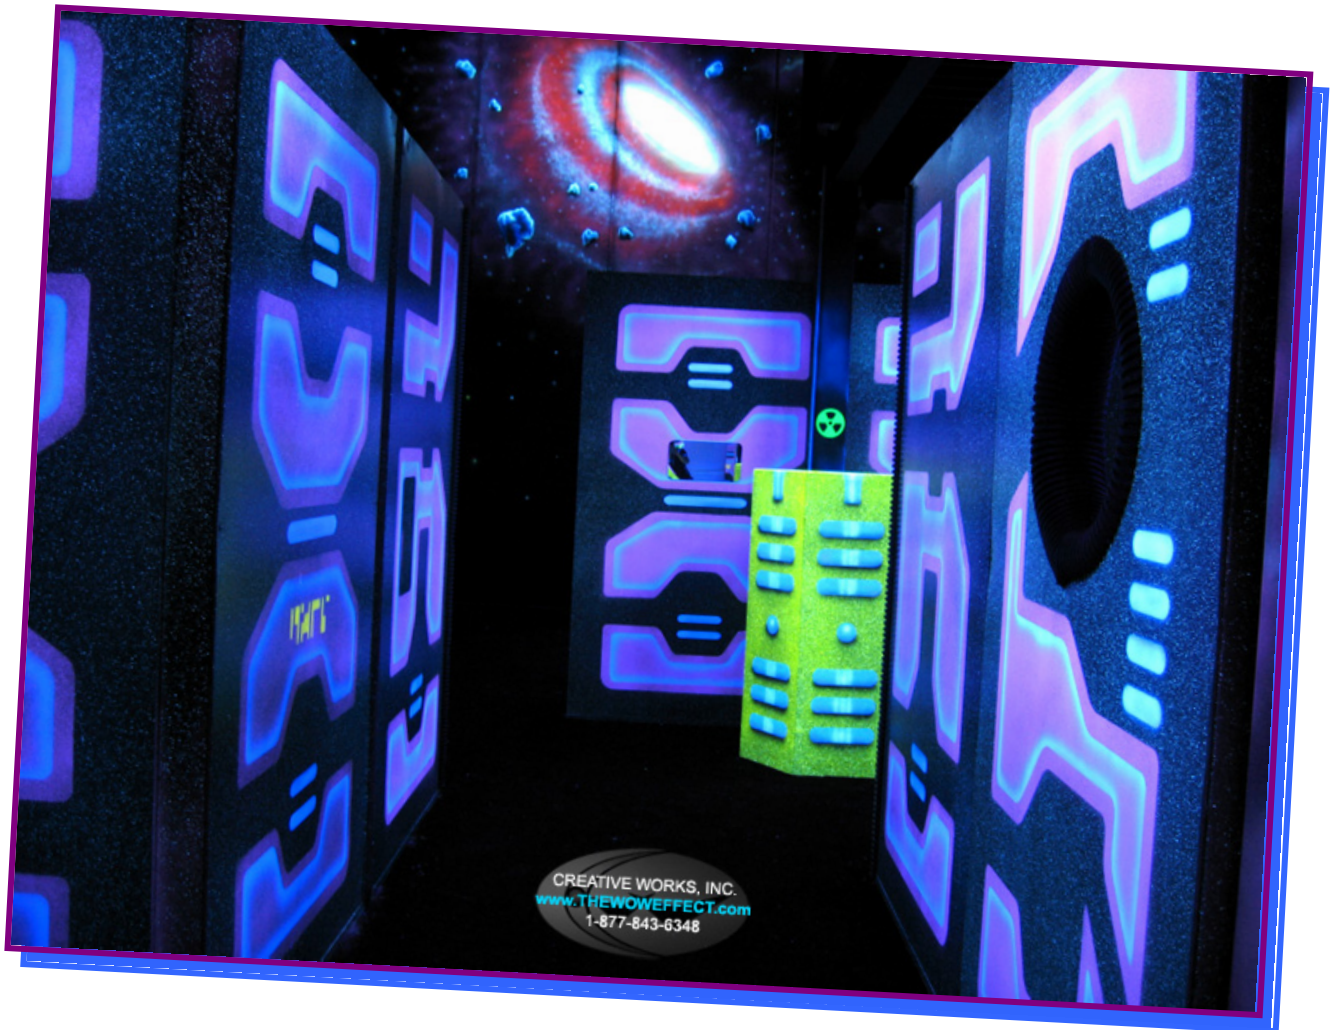

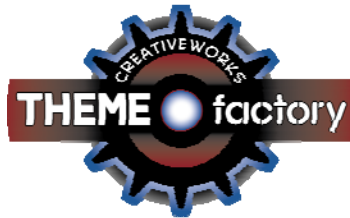

- 3,500 sq. ft. Laser Tag Arena with 2 Levels

Theme: [Space Quest](#) – The Brunswick group came to us and asked for the popular Space Quest theme to be slightly customized to fit their palate of colors and the overall look and feel of their facilities. They have initially contracted us to provide our themeing services to three facilities located in Minnesota, Missouri, and Illinois.

As with the first location we themed in Blaine, MN we themed this 3,500 square foot two-level arena in St Peters, MO with softer purples and blues and built a 14' Reactor Core as the focal point of the arena. The Space Quest theme includes high-tech glowing walls with geometric shapes and 3D graphics, expansive wall murals of planetary bodies, distant solar systems, and brightly colored nebulae, as well as glowing props and special effects lighting. Here's how their project went...

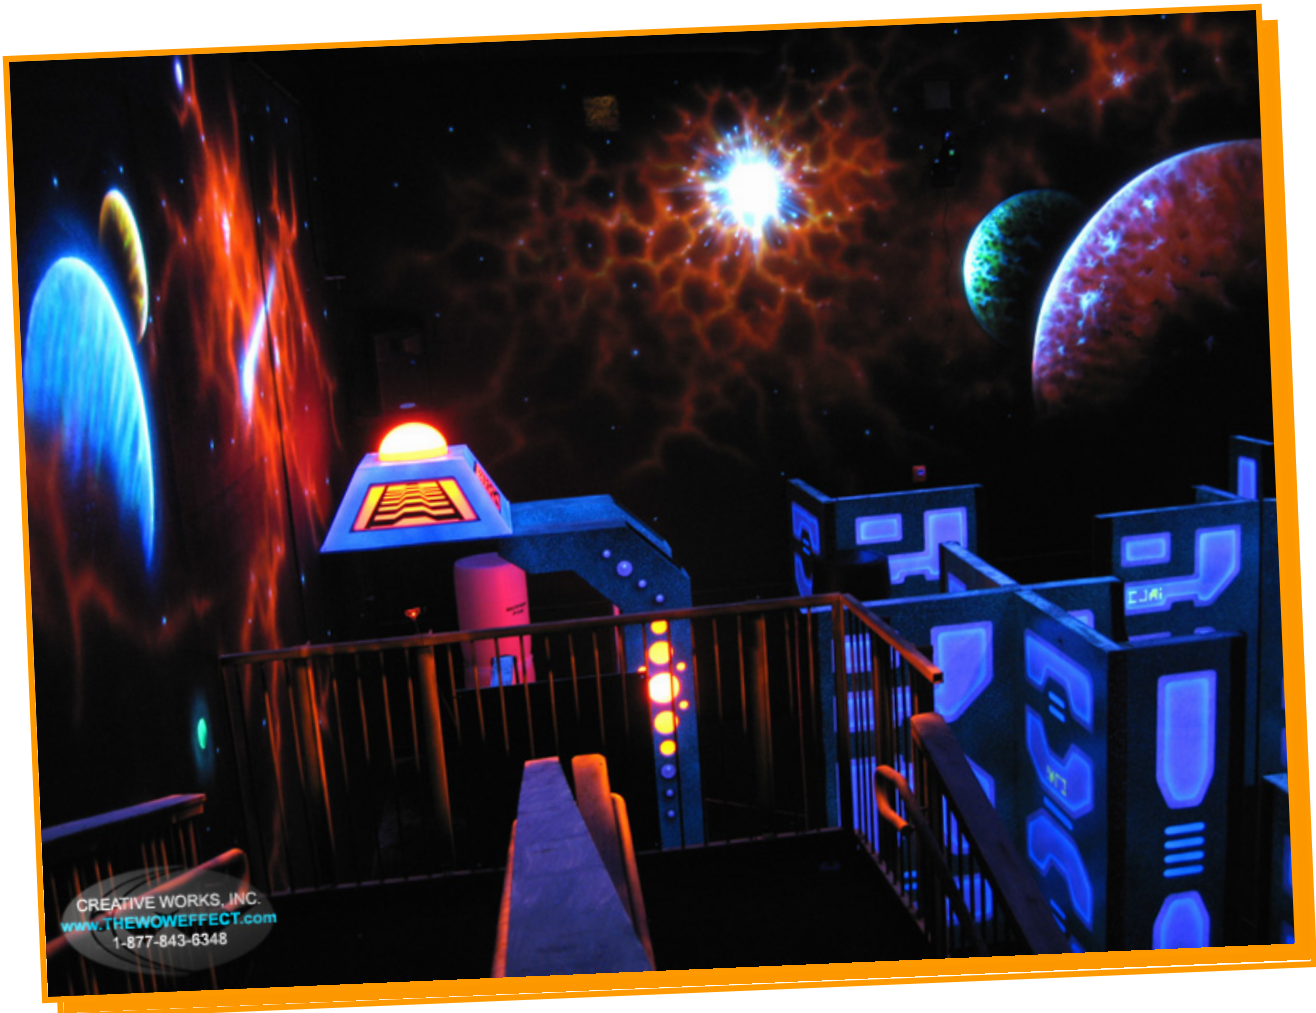

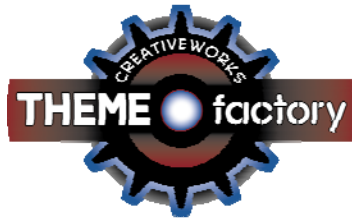

Briefing & Vesting Rooms – Both rooms are themed with our high-tech circuit panels and 3D airbrushed artwork along the walls, giving guests the definite feeling that they've stepped into another world. The futuristic Mission Rules sign in the Briefing Room and our new [LED Racks](#) in the Vesting Room provide stunning visual effects as guests are instructed on their game play scenarios and suit up into their advanced laser tag gear.

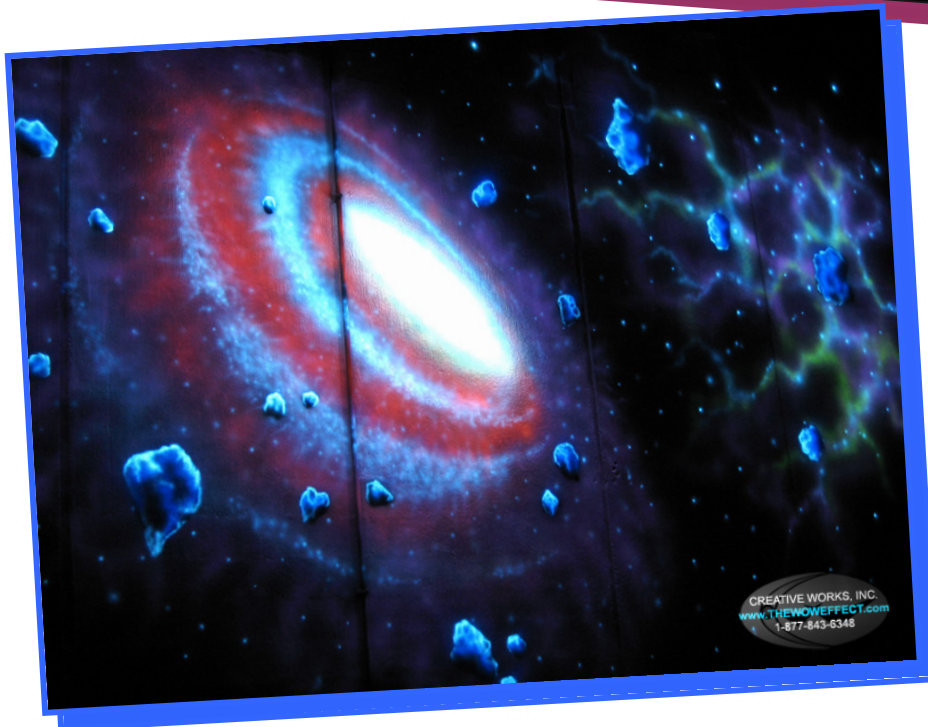

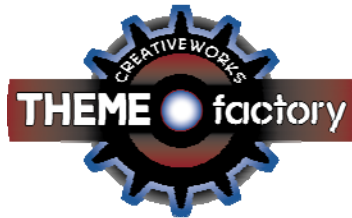

The Laser Tag Arena – Once inside the arena, guests are simply blown away by the dramatic scenes of space, impressive glowing props, and spectacular special effects lighting.

Featuring 3,500 square feet of multi-level space age labyrinth, the arena walls provide an impressive backdrop for guests as they live out their action adventure fantasies and battle their opponents in this futuristic landscape. Our Space Quest themed environment has become so popular for its 3D geometric shapes, shoot-through holes, and angled edges and it was made even more impressive with Brunswick's unique blend of cool blues and vivid purple hues. Space-age storage containers and futuristic crates are strategically placed throughout the arena and provide a wonderful cover for players as they complete their missions.

The dazzling space scenes adorned along the arena perimeter walls removes any sense of being inside a closed-in space and provides guests with breathtaking views of the massive expanse of outer space. From enormous planets and moons to brilliant nebulae and streaking comets, this laser tag arena has it all! The walls fade away as players rid the galaxy of their chosen opponents and reach for glory among the stars.

Installation Crew Credits: *Jeff Schilling* – Project Manager & Lead Installer, [Mike Clement](#) – Lead 3D Airbrush Artist, Prop Painter, & Muralist, and [Troy Pratt](#) – Prop and Arena Installation.
