

Project: SKATELAND, Savoy, IL.

September 2007

SITE SPECIFICATIONS

Theme: [Urban Quest](#)
Areas: Arena, Briefing, Vesting
Options Chosen: Matrix Gateway
Arena Size: 2,000 sq. ft.
Levels: 1 Level

Details: Set on the outskirts of the city, this themed environment exposes guests to the gritty, harsh reality of an abandoned industrialized warehouse complete with rusted metal walls, leaking pipes, and remnants of worn out machinery and old storage containers.

Briefing & Vesting Rooms – Guests start their adventure by entering through a 9 foot tall glowing Matrix Gateway with integrated lighting and plasma screens. This archway leads them into the Briefing Room, where they receive their instructions and rules of the game. They then proceed to the Vesting Room to suit up into their high-tech laser tag equipment in preparation for the game. Both rooms are themed with 3D airbrush artwork of metal wall plating with rivets, large sections of torn metal bending down, and larger-than-life 3D props including oversized steel bolts, large metal gears, and storm drains mounted along the walls.

Laser Tag Arena – A visually stunning environment, the arena maze walls appear to be made of rusted metal with steel rivets and the team bases look like large glowing power generators mounted onto steel support structures. The 3D props we created for this theme include large metal-like gears and storm drains, oversized bolts, and fallen iron beams that lay across the tops of the maze walls. Storage containers and crate stacks were also strategically placed throughout the arena to enhance the game experience. The arena's perimeter walls were given airbrushed murals of enormous steel ventilation grates and broken through sections of wall that give way to distant views of a glowing city skyline.

TO LEARN MORE ABOUT THE URBAN QUEST THEME and how Creative Works can design and build your site for operational efficiency and profit maximization, review our [Brochure](#) and **call our Theme Factory toll free at 877-843-6348**. Our themes are customizable for all types of entertainment attractions, from laser tag arenas and blacklight golf courses to dark rides, tourist attractions, amusement & theme park rides and more.
