Details: This themed environment transports guests to the distant future where they are immersed in a world of high-tech fantasy surrounded by futuristic technology and stunning space scenes.

Briefing & Vesting Rooms – The guests' journey begins inside the Briefing Room where they are trained about their mission. They then enter the Vesting Room where they suit up into their futuristic laser tag equipment. Both rooms are themed with our glowing high-tech 3D panels with airbrushed artwork of interlinking fluorescent trace lines along the walls, giving guests the feeling they've definitely entered another world. The futuristic "Mission Rules" sign and our themed props throughout provide stunning visual effects as guests prepare for their mission.

Laser Tag Arena – Once inside the arena, guests are simply blown away by the dramatic scenes of space, impressive glowing props, and spectacular special effects lighting. This multi-level arena maze with raised platforms, ramps, corridors, and cubby holes surrounds an enormous 14 foot tall Reactor Core Tower which serves as the arena's focal point. The high-tech glowing maze walls incorporated clean geometric shapes, shoot through holes, acrylic bounce mirrors, and angled edges. The arena perimeter walls were given expansive murals of planetary bodies, distant solar systems, and brightly colored nebulae. In addition, we strategically placed space-age storage containers and futuristic crates throughout the arena for enhanced game play.
